

Thomas,

Apologies for my tardy reply, but I did want to get back to you regarding the time and info/message you and the others gave a few weeks back. Your energy, enthusiasm, and light are very encouraging! I'm not sure that I'm ready to be a sower in such a public way, as at this point I'm attempting to 'spread seeds' in my personal (friends/family) and professional life, which was why I attended your seminar.

I also wanted to let you know that the refresher course on the Law (10 Commandments) at the beginning of the workshop has helped me to be more aware of my own transgressions on a regular basis, and I'm trying to keep that message at the forefront of my daily thoughts in an effort to a more obedient child of God.

Kindly,  
Siena
